Notable features:

The map of 1852 shows numbers 15, 17 and 19; they are a late carpenter Georgian style. Number 21 was built as a shop with one story above; it is also a deeper building. The structure which was on lot 29 was also deeper than 15, 17 and 19, and may also have had a shop beneath it. Map of 1876 shows all four. Numbers 15-19 have gable roofs. Number 19 has a round-headed door which is common on some better houses of this period in the area. There are 6/6 windows remaining at 15 and 19.

Environmental context:

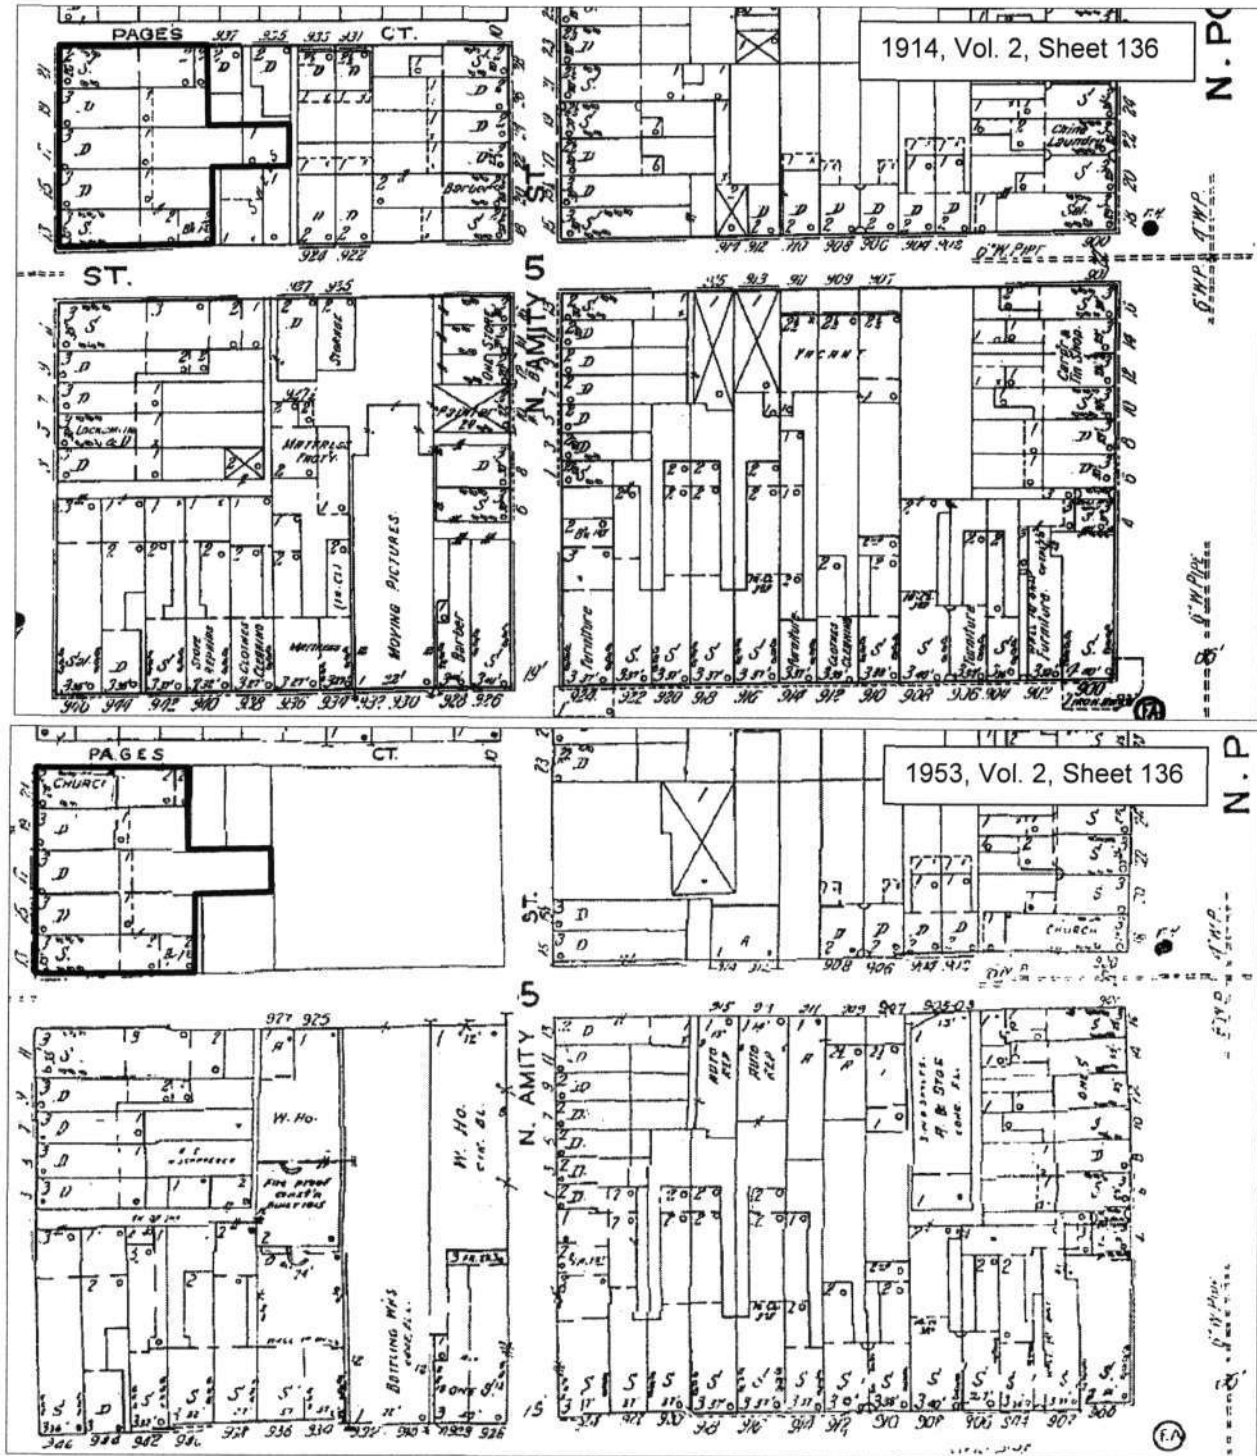

The house at 13 has been demolished. Street is wide; street trees are needed; land opposite has been cleared. These houses are of strong enough character to stand alone.
